Step 1 Power on Camera

1 Connect the AC adapter to your camera and plug it in.

2 If you see the blue and red lights flashing, camera waiting to connect.

Indicator Lights Status

Indicator Light Status	Camera Status
● Red light on	Camera is powered on
⚡ Red and blue light alternately flashing	Waiting to connect now
⚡ Blue light flashing	Camera is connecting Wi-Fi
● Blue light solid	Succeeded to connect Wi-Fi
⚡ Red light quickly flashing	1. Reset camera to factory setting 2. Camera is upgrading firmware

3 Make sure you are within range of the same Wi-Fi network you'll use for your camera.

Step 2 Get the App

For the best experience, download the Homeguardone app for your smartphone by scanning the QR code below or searching for "Homeguardone" in the app store.

Step 3 Account Register

- 1 Open Homeguardone App, then select Sign up.
- 2 Enter your email. Create a password at least 8 characters long. Your password must include three of the following:
 - *At least one uppercase letter*
 - *At least one lowercase letter*
 - *At least one number*
- 3 You will receive an email with your Activation Link. Open the link to activate your account. Go back to login your account after activation successful.

Step 4 Add device

- 1 Login your account and tap “Add device”.
 - 2 Choose the “Baby Care” to connect.
 - 3 Check if the camera’s indicator is flashing Blue and Red. If not, Please try to reset the camera.
- Reset Method:** Keep the camera powered on for more than 1 minute, then press and hold “Reset” button until the LED turns red.

Step 5 Connect to Network

- 1 Enter the correct Wi-Fi password.
Note: *The camera is not support 5GHz Wi-Fi.*
- 2 This App will generate a QR code, place the QR code 3~8 inches in front of the camera lens. when the camera prompt **“QR code scanning is successful”**, press **“Next”** and wait a moment.
- 3 Name the camera after the Pairing is successful. Press **“OK”** to complete the add operation.

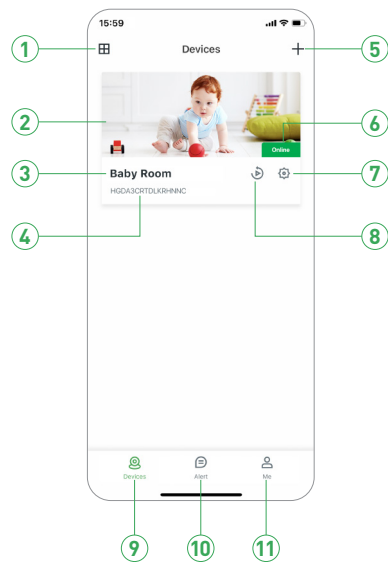

You're Done!

Congratulations! Your HGWIP819 BabyCare is set up and ready to go.

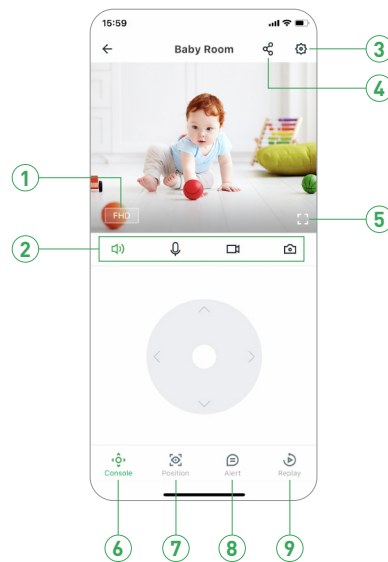

You are now free to position your camera anywhere in your home where you get a WiFi signal and view it remotely from anywhere in the world on your Smartphone or Tablet!
